Laser Nail Fungus Treatment Aftercare

**These instructions
must be followed after treatment:**

1. Clean cotton content socks daily
2. Use anti-fungal products in shoes and on sandals
3. Use anti-fungal products on nails
4. Keep nail length trimmed short to disallow contamination from entering under nail
5. Only allow sterilized implements/tools to be used on nails- use metal tools, boiled first, or use commercial sterilization products for nail industry
6. Do not go barefoot in wet areas

**Watch for new nail growth from nail bed
and keep your scheduled appointment
on front side of this card.**
